Newly submitted claims 53-56 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 53-56 are directed to the use of L-fucose and raise patentability issues distinct from the product alone.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 6-42 and 45-52, drawn to a product and process of making it, classified in class 127, subclass 30.
- II. Claims 53-56, drawn to various processes of using I, classified elsewhere.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product could be used in a materially different process such as fermentation.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original

presentation for prosecution on the merits. Accordingly, claims 53-56 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward W. Grolz on 13 June 2005.

The application has been amended as follows:

In claim 6, line 2, replace "step()", with:--step(2)--.

In claim 8, line 2, replace "frction" with: --fraction—and, replace "step(2)" with: --step (2)--.

In claim 49, line 1, replace "42" with: --41--.

In claim 50, line 1, replace "42" with: --41--.

Cancel nonelected claims 53-56 without prejudice.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Brunsman whose telephone number is 571-272-1365. The examiner can normally be reached on M, W, F, Sa; 6:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
